AMERICAN ASSOCIATION OF AVIAN PATHOLOGISTS

Placement Service

The placement service of the American Association of Avian Pathologists has been directed by Dr. George J. Christie. The directorship has now been transferred to Dr. Jack T. Tumlin. The policies of the placement service have not changed.

Avian pathologists interested in professional opportunities and employers desiring assistance are invited to communicate with the AAAP Placement Director:

Dr. Jack T. Tumlin
Department of Medical Microbiology
School of Veterinary Medicine
University of Georgia
Athens, Georgia 30601

No lists will be circulated. The entire services and all contacts will be STRICTLY CONFIDENTIAL.

Z

Ziv, Ruth 370

A

A vitamins, deficiency, in candidiasis 327
aflatoxin (see Aspergillus flavus)
allantoic sac, cannulation method 255
annual meeting, 1967, summary 517
anthelmintics
  Haloxon vs. Capillaria contorta in quail 257
  N-hydroxynaphthalimide diethyl phosphate vs. Ascaridia galli and Heterakis gallinarum 680
  methyridine vs. Capillaria obsignata in pigeons 322
  Naphthalophos vs. Ascaridia galli and Heterakis gallinarum 680
  thiabendazole vs. Syngamus trachea 44
  Yomesan vs. Ascaridia galli and Heterakis gallinarum 680
antiglobulin procedure for detecting antibodies of avian origin 69
Arizona group bacterins, comparative immunogenicity of 380
arginine vs. isoniazid toxicosis in ducklings 621
Ascaridia galli, Naphthalophos and Yomesan vs. 680
Aspergillus flavus in ducklings, anisotropy in livers 130
awards, AAAP to A. S. Rosenwald 515

B

"blackbirds," salmonella in 642
bobwhite quail, Mycoplasma gallisepticum in 378
bronchitis, infectious
  adaptation of Massachusetts strain to turkey embryos 28
  coexisting with infectious laryngotracheitis 419
  immunity following aerosol exposure 452
  immunity response from vaccine 446
  synergism with Haemophilus gallinarum 308
  thermal stability in salt solutions 261
  virus interference with Newcastle disease 399
bursal agent, infectious
  physicochemistry of 438
  studies 519
  transmission 430

C

Candida albicans, in turkeys, vitamin-A deficiency plus chlortetracycline 327
Capillaria
  columbae, in domestic fowl, small intestine histopathology 154
  contorta, in quail, Haloxon vs. 257
  obsignata, in pigeons, methyridine vs. 322
O,O-di- (2 chlorethyl) -*O*- (3-chloro-4-methylcoumarin-7-yl) phosphate (see Haloxon)
chlortetracycline, high levels plus vitamin-A deficiency, in candidiasis of turkeys 327
chronic respiratory disease, control, inoculation with Mycoplasma gallisepticum 528
Clostridium botulinum, type C cells and toxin, detection 345
coccidiosis in laying hens, effect on methionine requirement 556
cod liver oil fraction, vs. lymphocytoma 336

D

2'-5-dichloro-4'-nitrosalicylanilide vs. Ascaridia galli and Heterakis gallinarum in chickens 680
dihydrostreptomycin vs. infectious serositis in ducklings 38
disease, vaccine-borne, suspected 459
duck hepatitis, indirect hemagglutination with virus 586
ducks
  Aspergillus flavus poisoning in, anisotropy in livers 130
  infectious serositis in, antibiotics vs. 38
  isoniazid toxicosis in 621
  sterile hybrid, neoplasms in 79

E

eggs, microbial penetration of, technique for study of 467
encephalitis, eastern virus, titration 593
encephalomyelitis, culture in vitro 672
encephalomyelitis, infectious, lens opacity associated with 146
endoparasitism in pigeons in Chicago 342
endotoxin studies, chicks as test species 595
enteritis, hemorrhagic
  lesions of 684
  of turkeys 296

enterovirus from baby chicks
isolation and pathogenicity 1
characteristics 9
erythroblastosis in birds, response to two routes of induction 188
Escherichia coli
avian strains, biochemistry and serology 90
in endotoxin studies 595
reference center for, announcement 518
eye, lens opacity, associated with infectious encephalomyelitis 146

F

furaltadone vs. infectious synovitis in chickens 120
furazolidone, resistance to in Salmonella gallinarum strain 139

G

gapeworm (see Syngamus trachea)
glutamic acid vs. isoniazid toxicosis in ducklings 621
goose, osteogenic sarcoma in 365
goose, Canada, lead poisoning in 601
grouse, helminth and protozoan parasites of 170
gulls, salmonella in 642
Gumboro disease (see bursal agent, infectious)

H

Haemophilus gallinarum, synergism with infectious bronchitis virus 308
Haloxon vs. Capillaria contorta in quail 257
helminths, parasitic in North American grouse 170
hemorrhagic enteritis
lesions of 684
of turkeys 296
Heterakis gallinarum
in chickens and turkeys, responses 491
Naphthalophos and Yomesan vs., in chickens 680
Histomonas meleagridis in chickens and turkeys, responses 491
N-hydroxynaphthalimide diethyl phosphate vs. Ascaridia galli and Heterakis gallinarum 680
hypoxia, chronic, in chickens, pathophysiology 609

I

infectious bronchitis
coexisting with infectious laryngotracheitis 419
immunity following aerosol exposure 452
immunity response from vaccine 446
Massachusetts strain, adaptation to turkey embryos 28
synergism with Haemophilus gallinarum 308
thermal stability in salt solutions 261
virus interference with Newcastle disease 399
infectious bursal agent
physicochemistry of 438
transmission 430
infectious encephalomyelitis, lens opacity associated with 146
infectious laryngotracheitis in chickens
course of infection 149
vaccine, Mycoplasma gallisepticum in 426
infectious serositis in ducklings, antibiotics vs. 38
infectious synovitis in chickens, furaltadone vs. 120
infectious tracheitis, coexisting with infectious bronchitis 419
influenza virus isolated from turkeys 203
isoniazid
in ducklings, toxicosis 621
neural toxicity of for chickens 241
isonicotinic acid hydrazide (see isoniazid)

L

laryngotracheitis
in chickens, course of infection 149
vaccine, Mycoplasma gallisepticum in 426
lead poisoning in Canada geese 601
lens opacity, associated with infectious encephalomyelitis 146
leukosis complex
terminology and classification 98
erratum for above 153
workshop report 694
lymphocytoma, cod liver oil fraction vs. 336
lymphomatosis in cells, storage of 274

M

Marek's disease
pathogenesis 531
propagation in chicks 646
methionine, requirement in laying hens, effect of coccidiosis 556
methyridine vs. Capillaria obsignata in pigeons 322
Mycoplasma gallisepticum
action on erythrocytes of chicks, rabbit, and cow 370
antigen, culture medium for producing 123
in a commercial laryngotracheitis vaccine 426
in bobwhite quail 378
in chickens and turkeys, causing mycoplasmal salpingitis 393
in chickens, duration and distribution 578
in chickens, pathology 559
in chickens, serology 24
in turkeys, transmission 546
infectivity of aerosols 60
survival in aerosols 54
use to control chronic respiratory disease 528
Mycoplasma meleagridis
infectivity of aerosols 60
survival in aerosols 54
transmission 634, 288
in turkey breeders, effect on fertility 268
Mycoplasma synoviae
in chickens, duration and distribution 578
serology 104
mycoplasmal salpingitis in chickens and turkeys 393

N

Naphthalophos vs. Ascaridia galli and Heterakis gallinarum 680
neoplasms in ducks 79
Newcastle disease
commercial inactivated vaccines, evaluation 198
interference from infectious bronchitis virus 399
lentogenic strains, identification of 49
pigeon response to 8 strains 734
vaccine, effect on immunity 668
niacin vs. isoniazid toxicosis in ducklings 621

O

oxytetracycline vs. infectious serositis in ducklings 38

P

Paracolobactrum arizona in endotoxin studies 595
Pasteurella in wild birds in Massachusetts 413
penicillin vs. infectious serositis in ducklings 38
Physaloptera, aberrant larvae of, in a quail 41
pigeons
Capillaria obsignata in, methyridine vs. 322
endoparasitism in, in Chicago 342
response to 8 strains of Newcastle disease 734
Tetrameres in, in Kansas and Oklahoma 407
poultry diseases diagnosed
North Central Conference area 703
Southern Conference area 708
Northeastern Conference area 727
pox, experimental infection, in waterfowl 209
protozoa, parasitic on North American grouse 170
pyridoxine vs. isoniazid toxicosis in ducklings 621

Q

quail
Capillaria contorta in, Haloxon vs. 257
Mycoplasma gallisepticum in 378
Physaloptera in, aberrant larvae of 41

R

Rous sarcoma
antibodies for, compared 65
in cells, storage of 274

S

salmonella
in "blackbirds" and gulls 642
in chickens, epidemiology 653
isolation, incubation time and temperature 217
screening abbreviated 503
Salmonella gallinarum, furazolidone-resistant strain 139
Salmonella thompson, in endotoxin studies 595
Salmonella typhimurium, bacterin, challenge of poults from hens vaccinated with 15
salpingitis, mycoplasmal, of chickens and turkeys 393

sarcoma
in birds, response to two routes of induction 188
osteogenic, in goose 365
serositis, infectious, in ducklings, antibiotics vs. 38
staphylococcosis, pathology in chickens 354
sulfaquinoxaline, intolerance to in chickens 226
Syngamus trachea, thiabendazole vs. in turkeys 44
synovitis, infectious
in chickens, duration and distribution of agent 578
in chickens, furaltadone vs. 120
in chickens, pathology 354

T

techniques
cannulation of allantoic sac 255
cell culture, encephalomyelitis 672
culture medium for producing antigen of Mycoplasma gallisepticum 123
detection of antibodies of avian origin 69
fluorescent antibody, for type C cells and toxin of Clostridium botulinum 345
salmonella isolation, incubation time and temperature 217
salmonella screening 503
studying microbial penetration through outer structures of egg 467
virus isolation, criteria for validity 508
Tetrameres in pigeons in Kansas and Oklahoma 407
thiabendazole vs. Syngamus trachea in turkeys 44
tracheitis, infectious, coexisting with infectious bronchitis 419

V

vaccine, suspected disease carrier 459
virus, isolation, criteria for validity 508
waterfowl, pox infection in, experimental 209

W

Western Poultry Disease Conference, program, 1967 137

Y

Yomesan vs. Ascaridia galli and Heterakis gallinarum in chickens 680
